

Golden rules for Work use of CHATGPT

#1 Prioritize the use of copilot or Nexans ai

 **AI SERVICES**
[TEST IT NOW](#)

#2 Prefer ChatGPT Plus or Pro

The free version will be **blocked at the end of 2025**, while the paid version remains available. Additionally, avoid requesting exceptions or exotic tools.

#3 Never enter sensitive information

about Nexans, its customers, suppliers, or stakeholders into ChatGPT.

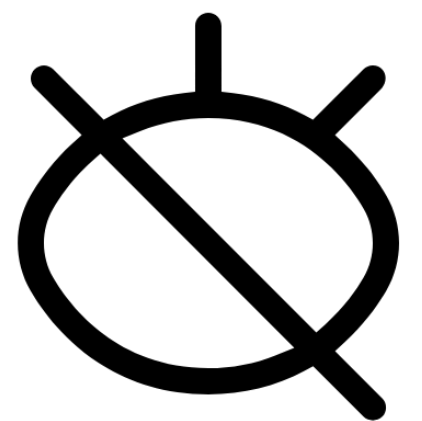

Sensitive info = anything not publicly available.

#4 Never share or ask about Nexans' employees

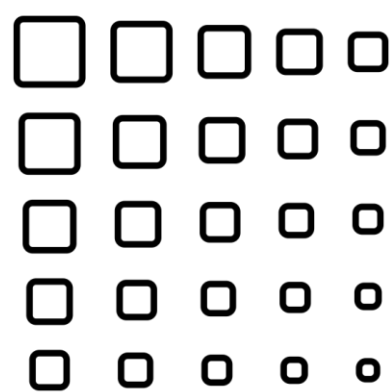

or other individuals.

Prevent storage of personal data by OpenAI.

#5 Always disable chat history

or equivalent to **prevent data from being collected** and stored for longer than 30 days.

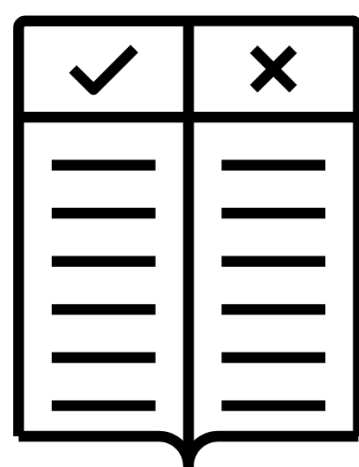

#6 Fill out OpenAI's user content exclusion request

in order to prevent the developer from **storing and using interactions for research and improvement purposes.**

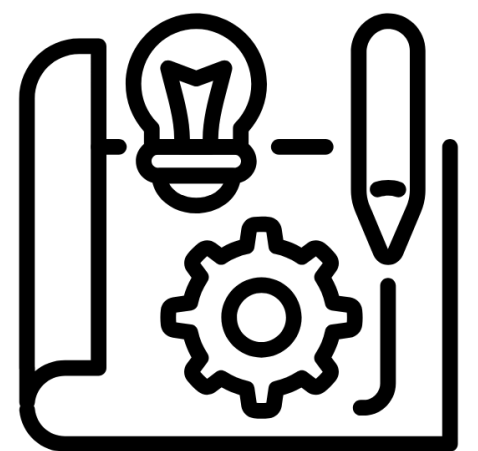

#7 Always apply Nexans' cyber security golden rules

which can be found on the "Nexans Rules" SharePoint, **and promptly report any suspicious activity.**

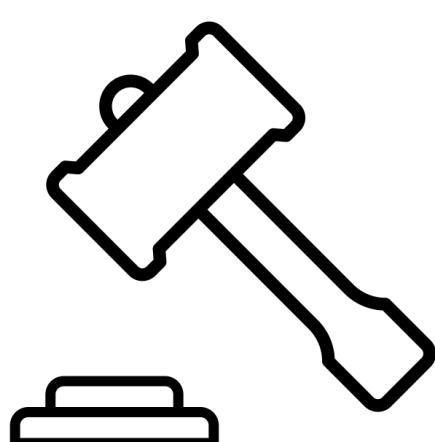

#8 Never use for Nexans' product development.

and solutions as they are not unique and **might be in violation of intellectual property rights.**

#9 Never use chatgpt for tasks requiring expertise

Summarizing public articles is OK but **Legal interpretation is not Not OK.**

#10 Always double-check

ChatGPT's output regarding legal, historical, economic or political facts because of the risk of inaccuracy and biases.
